

ABOUT ME

After a 3,5 years period in industrial sector : firstly as a project engineer and then in controlling department, I have decided to switch my career into Data Analysis.

After a successful self-training period in analytics I've joined Stuart a last-mile delivery scale up in Business Operations and then as Product Analyst in Network Optimisation

WORK EXPERIENCE

STUART
Paris
Feb 2024 - Present

- Product Analyst**
- Collaborated cross-functionally with Engineering, Product Management, and Design teams to develop a reactive tool aimed at enhancing platform reliability through strategic incentives and improved courier communications for 3 European markets
 - Executed Hypothesis Testing methodologies to extract actionable insights, informing and steering product development decisions.
 - Designed and implemented SQL pipelines alongside Tableau dashboards for comprehensive monitoring of critical product performance indicators.

STUART
Paris
Aug 2022 - Feb 2024

- Business Analyst**
- Engineered an automated Python solution for managing high-priority requests, including GDPR and Government Indicators, streamlining the Courier Digital Onboarding process and saving 20 hours per week in Operations.
 - Crafted and deployed a Python-based earnings compensation model for the French market
 - Collaborated with Operations to refine incentive strategies ~ 60k€ weekly, increasing profitability through data-driven optimizations.
 - Provided pivotal support to the Data Science team in the development and deployment of Machine Learning products into production environments.

CLAAS
Harsewinkel - Germany
Aug 2021 - Apr 2022

- International Graduate Program - Finance/Controlling**
- Completed an intensive 4-month training in controlling concepts acquiring foundational finance skills
 - Advanced to a 6-month tenure at the Group's HQ in Germany : developed an automated Working Capital Dashboard and provided robust support in daily controlling processes

CLAAS
Le Mans
Sep 2018 - Aug 2021

- Industrial Project Engineer in Apprenticeship**
- Developed and managed a reworking workshop for internal scraps with part-time therapeutical employees - reduce scrapping cost by 50% ~ 250k€.
 - Developed two sub-assembly lines to reach new industrial concepts in order to increase production efficiency, quality and operator ergonomy ~200k€.

EDUCATION

SELF TRAINING
Paris
2022

- Data Analyst**
- Portfolio - Self Training in Analytics Skills : Python, SQL, Tableau, Statistics

ARTS ET MÉTIERS
Angers
2021

- Master of Science - Industrial Engineering**
- Diploma equivalent Master of Science in Industrial Engineering - Ranking: 30/1200
